

For our office in Munich center, we are looking for an experienced engineer who values automation and testing to further improve our existing systems and create new solutions.

FULL STACK DEVELOPER (M/W)

YOUR ROLE

- Your work here is diverse. Depending on your experience in one or more software stacks, you may work here on web applications, Web services, small console tools, Linux daemons, NT Services, data crunching and more.
- Experience in one of our stacks is required; experience in more stacks is a plus. We value the ability to learn and to enrich our knowledge continuously.
- As developer in our team you take pride not only in developing code, but also in shipping solutions and maintaining the software you write.
- “You build it, you run it” is our mantra. You take responsibility and ownership for your software from the very beginning up to the implementation.
- During your work you value testability and the ability to monitor your solutions.
- You think developers have nothing to do with fashion? We can prove you otherwise! Domain know-how sticks to all of us. And of course, you can wear the jeans and Shirts with your favorite technology at work – style must be individual!

YOUR PROFILE

- Ideally you have a university degree in computer science or a related domain. As an alternative you have years of working experience in software development.
- You speak German, English or both languages fluently.
- You worked in interdisciplinary agile teams before and are willing to work with Kanban based flows.
- You have hands-on experience with databases, in both traditional RDBS and NoSQL variants. At MYBESTBRANDS we use MS SQLServer, MySQL, PostgreSQL, MongoDB, Solr and Elasticsearch.
- You have experience in writing productive code in one or more of the following technology stacks:
 - .net Website: (C#, nancy, nunit), bamboo, JavaScript (jQuery, grunt), SASS, databases
 - Node Website: Nodejs, Express, React, redux, mocha, jest, Webpack, Jenkins, databases
 - .net Webservice: (C#, nancy, nunit), REST web services, bamboo, databases
 - Backend/ Infrastructure: Python, Ansible, Jenkins, databases
- Experience with Azure Cloud services, automation tools (especially with Ansible) or Docker containers is a plus.

WHAT MAKES US?

- A family environment with flat hierarchies, where founders and colleagues meet at eye level.
- Startup atmosphere and entrepreneurial spirit, combined with the safety of a grown company.
- Flexible Working hours, Work-Life-Balance and our principle: Family first!
- An excellent location in the heart of Munich`s Glockenbackviertel.
- Events, free Fruits, Coffee und drinks, Yoga and more!

YOUR JOB?
