

For our office in Munich center, we are looking for an experienced colleague who values automation and testing to further improve our existing systems and create new solutions.

## DEVOPS ENGINEER (M/F) PART TIME (20 – 25 HOURS)

### YOUR RESPONSIBILITIES:

- You guarantee the efficient operation of our IT infrastructure and are the contact person for all matters concerning servers & co.
- “You build it, you run it” is our mantra. You take responsibility and ownership from end to end
- You work side by side with our developers, support them in deployments and integrate software into our web platform.
- You find the best solution how we can realize our ideas in a technical way
- You create, maintain and extend our infrastructures.
- Analyzation and fixing bugs is your daily business but also one way to optimize a system

### YOUR PROFILE

- Profound knowledge of deployment and distribution of applications in Python, NodeJs, .Net, Core and PHP
- Experience in one of our stacks is required; experience in more stacks is a plus. We value the ability to learn and to enrich our knowledge continuously. You are familiar with:
  - **Operating systems:** Linux, Windows Server + IIS
  - **Software:** Ansible (or Puppet), Jenkins, Rundeck
  - **Services:** MS SQL Server, Postgres, Mysql / MariaDb, ElasticSearch, Solr
  - **Container:** Docker, Kubernetes
  - An advantage would be good knowledge in Debian, TCP/IP, SystemD, Logrotate, Nginx, Filebeat, Kibana, Bash, Nagios, Icinga, and/ or Git.

### WHAT MAKES US?

- A family environment with flat hierarchies, where founders and colleagues meet at eye level.
- Space and time to try out new things.
- Flexible Working hours, Work-Life-Balance and our principle: Family first!
- An excellent location in the heart of Munich's Glockenbackviertel.
- Events, free Fruits, Coffee und drinks, Yoga and more!
